Education

- 2023–2027 **B.Tech in Computer Science and Engineering**, *Karunya Institute of Technology and Sciences*, Coimbatore, CGPA: 8.14
- 2022–2023 **Class XII (CBSE)**, *Sri Chaitanya PU College*, Score: 75%
- 2020–2021 **Class X (ICSE)**, *HAL Gnanajyothi School*, Score: 93%

Technical Skills

- Languages Java, Python, SQL, HTML/CSS
- Databases & Frameworks React.js, MongoDB, FastAPI, PostgreSQL
- Tools Git, GitHub, VS Code, Docker
- Core Subjects Data Structures & Algorithms, Object-Oriented Programming, Web Development

Experience

- Aug **Software Intern**, *Redintek Solution*
- 2024–Mar 2025
- Spearheaded backend development and maintained essential software modules using FastAPI and PostgreSQL, significantly improving system efficiency.
 - Collaborated actively with the engineering team to debug critical issues, resolve bottlenecks, and optimize overall application performance.

Projects

- 2024 **Diabetic Retinopathy Detection**
- Developed a machine learning model to analyze retinal images and detect early signs of Diabetic Retinopathy.
 - Implemented the solution using Python, TensorFlow/Keras, and OpenCV for robust image preprocessing and classification.
 - Achieved high classification accuracy by training and validating the model on specialized medical imaging datasets.
- 2024 **Distributed Emergency Alert & Response System**
- Engineered a real-time emergency reporting platform to facilitate rapid incident response and communication.
 - Built a scalable full-stack architecture utilizing React for the frontend, alongside Express.js and MongoDB for backend data management.
- 2024 **RedBus Clone**
- Designed and developed a comprehensive bus booking application replicating the core user interface of RedBus.
 - Focused on creating a highly responsive and interactive frontend layout utilizing modern HTML5 and CSS3.
